Alexander Markoff Primary Examiner Art Unit: 1746 Continuation of 9. Other (including any explanation in support of the above items):

The Brief only states the status of the claims and lists arguments. The Brief fails to provide a statements of issues. The following is a relevant part of MPEP 1206 describing requirements for the statement of the issues.

(6) Issues. A concise statement of the issues presented for review. Each stated issue should correspond to a separate ground of rejection which appellant wishes the Board of Patent Appeals and Interferences to review. While the statement of the issues must be concise, it should not be so concise as to omit the basis of each issue. For example, the statement of an issue as "Whether claims 1 and 2 are unpatentable" would not comply with 37 CPR 1.192(c)(6). Rather, the basis of the alleged unpatentability would have to be stated, e.g., "Whether claims 1 and 2 are unpatentable under 35 U.S.C. 103 over Smith in view of Jones," or "Whether claims 1 and 2 are unpatentable under 35 U.S.C. 112, first paragraph, as being based on a nonenabling disclosure." The statement would be limited to the issues presented, and should not include any argument concerning the merits of those issues.
